SINCE 1996

NITRO

Do you want to serve your customers FRESH, LOCALLY MADE *Cold Brewed Coffee?*

Now it's easier than ever to tap into the most exciting & fastest growing coffee beverage in history.

News Flash

Consumers can't get enough. "We're going through 20 to 25 gallons of Cold Brew on weekdays. It beats out every single other drink.", Jonathan Dreszer, General Manager of Brooklyn's Cafe Devocion, told **Moneyish**. And people are dropping \$4.50 for just a 12-ounce cup.

Cold Brew Coffee Science (CBCS) has created several preparation and serving methods each designed to serve your unique style of business. Food service Operators can now be highly efficient, profitable and successful when tapping into this fastest growing segment of the coffee industry.

1. Kegged Cold Brewed Coffee, Still or Nitro (Nitrogenated).
2. Ready to Serve (RTS) Cold Brew, 1 gal. Just pour over ice and serve.
3. Ready to Make (RTM), super cold brew concentrate 3:1 in 1/2-gal. Yields 256 oz.
